16 June 1965

SUBJECT : Parachutes, Ground-to-Air Camouflage

2. Three dummy drops have been made at [] and still 25X1A photo coverage obtained. Test results were encouraging. It is now planned to obtain movie coverage in addition to the still camera and to dummy-drop the camouflaged canopy immediately followed by a man who will have a white canopy. In this way comparative results will be obtained. Approximately twenty tests will be made to get adequate coverage with different sky backgrounds.
